

# MOTIVATION LETTER For Game Development

21.01.2025

Dear reader,

My name is Colin Berens, and I am excited to offer my expertise in game development to creative-thinking clients and collaborators. As a highly motivated and skilled game developer, I want to bring my ideas to life and contribute to providing gaming experiences to players. That was my reason why I started getting a degree in independent game production.

With a bachelor's degree in independent game production. I have sharpened my skills in programming, game design, and game art. I am passionate about exploring new technologies or different ways of making games. I'm always eager to learn new things like a new game engine.

I also believe that teamwork is the most valuable thing to success in the gaming industry. By working with other talented people, you only can achieve greatness. However, there can be a lot of problems. And that's also a goal of mine, making sure that everything works together.

Please feel free to explore my portfolio and reach out to discuss how we can work together to create something extraordinary. Thank you for visiting my website, and I look forward to the opportunity to collaborate with you.

Regards,

Colin Berens
